

## **Pipeline Marketplace FAQ's**

### **Who are the participants?**

- Companies that currently have commitments for pipeline capacity; and
- any market participant that needs capacity on a pipeline and either:
  - The pipeline is already full-up; or
  - they have been awarded capacity on a pro-rated basis, but that volume does not fully meet their needs.

**Why should we participate?** The Pipeline Marketplace enables companies with pipeline commitments to optimize their unused capacity. Also, shippers can use the Pipeline Marketplace to both post their capacity requirements to purchase space that would not normally be available to them.

**How do I create a listing?** After you log in, please select “Create” to start the process. You then designate whether you are a buyer or a seller. After doing that, you set a minimum price and the length of time during which the listing will be active. Listings can be active for as little as an hour and for as long as 30 days. If the listing expires without a purchase or sale, you can renew that listing.

**Can I modify my listing once it is created?** Yes, under “**My Orders**” you can modify the price, volume, term and expiration.

**Can I create more than a single month to offer?** Yes, you can offer to sell or buy capacity for a single month, capacity for several consecutive months or capacity for several non-consecutive months.

## **Pipeline Marketplace Parameters**

**Term:** A Listing can be as short as a single month of pipeline capacity, and there is no limit to how far forward you can list.

**Seller:** A shipper with existing pipeline capacity that is looking to optimize its commitment

**Buyer:** A potential shipper that is looking to purchase pipeline capacity from an existing owner.

**Terms and Conditions:** The committed shippers' terms and conditions governs all transactions.

**Current Schedule of fees:** There will be no fees charged for the first six weeks from launch. Fees to be announced will be comparable to current market practice.
